FOR IMMEDIATE RELEASE

Ken-A-Vision Introduces New Comprehensive Microscope Series

Kansas City, Missouri - October 29, 2008 – Ken-A-Vision today introduced the new Comprehensive Microscope series, a modern, modular microscope line with a built-in handle and power cord storage system, with 14 configuration possibilities. The Comprehensive series offers corded and cordless versions, analog and digital versions, and various headtypes (monocular, dual-viewing, binocular).

“The Comprehensive Series is globally one of Ken-A-Vision’s strongest lines and we’ve made it even better for the K-12 educational market,” said Steve Dunn, Ken-A-Vision’s President. “We think teachers are going to appreciate the new design, especially with the clever, sturdy red handle and convenient cord storage system.”

The new Comprehensive series incorporates standard Ken-A-Vision features such as Ken-A-Vision Cool LED Lighting and a light dimmer (Rheostat) switch for easy adjustment of transmitted light. The new Comprehensive series also features a 10x wide field eyepiece, achromat objectives (4x, 10x, 40xR DIN), reverse nosepiece, and a coaxial focus knob.

Pricing & Availability

The new Comprehensive Microscope line will be available in January 2009 for a suggested retail prices ranging from \$299 to \$899 through Ken-A-Vision’s authorized dealers and distributors.

About Ken-A-Vision
